

# STAR

Since 1984

## PURSuing EXCELLENCE

WORLD-CLASS METAL CRAFTS MANUFACTURER

V01

# Introduction

---

*Established in 1984, Star Lapel Pin Company has dedicated its effort in manufacturing and supporting trading companies for 28 plus years. Our products include die struck lapel pins, key chains, coins, medals, medallions, cuff links, tie bars, badges, die cast zinc alloy, and spin cast pewter items. Our topnotch quality and punctual delivery time have tremendously facilitated our clients' business growth.*

*Our factory was moved from Taiwan to Dongguan, China in 1996. The facility is 60,000 square meters. We also own a metal factory (Die Struck/Die Cast & Spin Cast), a lanyard factory, and an embroidery factory. The sourcing department has taken care of special requirements in accessories and packaging. We are proud that our clients can obtain comprehensive service when they place any order. Our warehouse in H.K. can accommodate vast quantities of goods and has systematic methods to ship the products. Therefore, our clients benefit from the best possible rate from courier companies and air forwarders. We intend to blaze a new and efficient trail for all our loyal clients.*

*With consistent efforts in manufacturing and quality control, we have become an authorized manufacturer for McDonald's, Disney, Universal Studio, Sedex, Adidas and Starbucks. We are annually audited or monitored by various brands, and we are always in compliance with the standards regulated with corporate social responsibility. It is our heart's desire to assist our clients to obtain ordinary orders and earn the bids from famous brands or special events. Partnering with us is a win-win situation.*

**Products shown above are for demonstration only, not for sale.**

## ***Our Business Tenet***

- ◎ ***Work Pleasantly***
- ◎ ***Trust Mutually***
- ◎ ***React Positively***
- ◎ ***Share Honorably***

## ***Our Strengths***

- ★ *Offering comprehensive services from preparing designs, manufacturing the products, and shipping*
- ★ *Possessing a responsible attitude toward all transactions which include follow-up services.*
- ★ *Providing various material test reports on the requirement of lead or phthalate limits*
- ★ *Having strong R&D capability to do special designs*
- ★ *Owning a state of art factory in Jianxi, China by late 2012--We will be empowered to continually offer our clients the best unit prices, superior quality, and speedy delivery.*
- ★ *Our China factory has been accredited as a "Green Label" Enterprise in 2008*

# Lapel Pins

## Die Struck Cloisonne (Hard Enamel)

- Material: Copper
- Motifs: Die Struck (Stamping)
- Colors: Mineral Ore, In Powder
- Colors should be burned at temperature of 800°C (1472°F)

Hard Enamel Coloring

## Die Struck Soft Cloisonne (Imitation Hard Enamel)

- Material: Copper or Brass
- Motifs: Die Struck (Stamping)
- Colors: Colored Epoxy
- Colors are baked at temperature of 80-90°C (176-194°F)

Surface Grinding

## Die Struck Copper or Brass Soft Enamel

- Material: Copper or Brass
- Motifs: Die Struck (Stamping)
- Colors: Soft Enamel colors
- Colors are baked at temperature of 160°C (320°F)
- Epoxy: Optional

Soft Enamel Coloring

## Die Struck Iron Soft Enamel

- Material: Iron
- Motifs: Die Struck (Stamping)
- Colors: Soft Enamel colors
- Colors are baked at temperature of 160°C (320°F)
- Epoxy: Optional

Epoxy Covering

## Photo Etched Soft Enamel

- Material: Brass, Aluminum, Stainless steel
- Motifs: Photo Etching
- Colors: Soft Enamel colors
- Colors are baked at temperature of 160°C (320°F)
- Epoxy: Optional

Photo Etching

Products shown above are for demonstration only, not for sale.

# Lanyard Factory

Heat Transfer Machines

Lanyards are ubiquitous. There are ID lanyards, mobile phone lanyards, luggage belts, pet leashes & collars, shoelaces, and other products that contain straps. Their materials include polyester, nylon, cotton and eco-friendly recycled PET (Polyethylene Terephthalate), bamboo fiber, and biodegradable PLA. Custom logos can be shown with silkscreen printing; offset printing, heat transfer printing and woven logo. We have been professionally manufacturing all these promotional lanyards. With a customer-centered service attitude, we always keep up with the trends and

demands of the current market. We produce innovative lanyards such as glow-in-the dark ones and lanyards with glittering color printing, epoxy rhinestone & acrylic rhinestone. We also manufacture special fittings such as retractable reels, bottle openers, mobile phone pouches, ID badge holder, carabinera hooks, whistle & USB attached ... etc. if our clients choose to have them. We desire to offer our clients comprehensive service.

# Embroidered Patches

Embroidery Machines

Custom-embroidered patches offer the high-quality appearance of direct embroidery without the high cost. We have 40 TAIMA embroidery machines which insure consistent quality and speedy delivery time. We deal with ordinary fabrics such as twill background, felt & velvet; special fabrics such as reflective & flame retardant fabrics are available. If the patches are made with twill background, borders should be either merrowed or heat cut. The merrow border is suitable for regular shapes such as

round, rectangular, and square patches. The heat cut border is fitting for the irregular-shaped patches. As to the felt and velvet backgrounds, scissor cut border is the best method without any cost increase.

The backside of the embroidered patches can be made with an iron on feature which is the most popular method. The customers can easily apply heat with an iron and adhere the patches to the shirts, jackets, hats, or any other article of clothing. We provide patches with Velcro backings, and they are excellent when you need to frequently replace or rotate custom embroidered patches. The double-sided adhesive tape backings can offer similar flexibility like the Velcro.
